mga bossing!

patulong naman, pwede bang ma save yung mga ginawa ko sa amibroker? di ko kasi ma save yung mga ginawa ko.

salamat ng marami! :)

## AMIBROKER PROBLEM

Posted by ceteris\_paribus - 2007/05/23 06:05

---

Help! I'm desperate! When I'm updating stocks here at home through Amiquote, hindi accurate yung volume. Why is this happening? Sa office hindi naman ganito... :( Volume pa man din ang nawala. Now I'm 2-3 days not updated with the volume. I can't figure out how my machine doesn't register the last two zeros in the volume. Pano to? Naaayos ba ito through Amiquote? Napapraning na ko, nawala yung volume. :lol:

Please help... :(

=====

Kung talagang talagang wala na IMO reinstall Amibroker all together. Just save your database then reload it to the newly installed Amibroker. If it still fails I am afraid if its too important to you then re download the whole database altogether.

ano ang actual volume? at ano ang nagregister sa amibroker?

baka may kumalikot ng amiquote config mo. ang alam ko may divide by something yan, like divide by 100, 1000 or whatever.

If you're using a trial version then just buy a license: \$148 [www.amibroker.com](http://www.amibroker.com), wag ng magkuripot at willing ka ngang maubusan ng pera sa PSE eh :lol:

Dear Arnold,

Mayroon lang po akong napansin sa aking Amibroker... di po lumalabas ang volume sa PSEi Chart ko mula Marso akinse.... Papano po ang aking gagawin?

Nagmamahal,

Mickymac

Dear Kuya Yeahbah,

Itago Nyo na lng ako sa pangalang Fred, ganun din po karanasan ko sa volume ng psei sa amibroker.

Nagmamahal din po,

Fred

Dear fans,

Hindi ko yata napansin na may kababalaghang nagaganap sa volume ng PSEi. Gayunpaman, aking susuriing mabuti kung ano ang sanhi ng kagimbal-gimbal at karumal-dumal na kababalaghang ito. Ipapaalam ko kaagad sa inyo ang resulta ng aking pagsusuri.

Wagas na nagmamahal,

Yeahbah!

sorry guys wala akong nakitang problema. try rebuilding your data na lang ;)

Kuya Yeahbah, paano po ba magkaroon ng additional window sa amibroker, like yours, yung may VOLUME na may red and green colors. nagedit na po ako ng formula pero di ako makapaginsert ng new window.

salamat po.

pol punta ka sa window ng symbols, layout, layers and charts. Click mo yung charts and then go to Basic Charts folder. Click mo yung Volume (Color)...

Pwede ka ring mag-add pa ng mga indicator just in case na gusto mo.. :D

Dear Mr. Johnny Skidmarks,

Napansin ko po sa inyong charts ng ^PSEi ay kayang lumagpas ng dalawang bilyon ang volume.

---

Maari po bang maitanong kung pano nyo po ito nagawa? Pasama na din ng formula ng NFB/NFS.

Salamat.

Nagmamahal,

Mickymac

Salamat.

Nagmamahal,

Mickymac

mr. pogi ever,

Para sa mga PSE indices, divide lang ni PSEGet by 1000 ang volume/value. So kung 2,000,000,000 ang volume, magiging 2,000,000 na lang.

para sa formula naman ng NFB/NFS

$NFB/S = \text{Foreign buy} - \text{foreign sell}$

;)

Sir Bonner,

Can you give a step by step guide to change the moving averages? Had to reinstall Amibroker.

Thanks.

hey guys, when i open my amibroker this a.m. the candlestick price chart are all missing, i mean its all white space, except my trendlines and notes i wrote on the chart can still be seen. the macd and rsi windows i have are still showing and intact. my cursor tip if pointed at certain location on the chart still shows the ohlc and volume on that day.

anybody knows if this happened to them and any solution?

well, after reading this forum, i opened another window using the chart- basic charts - price (all in one), and everything is back to normal except my trendlines and notes are not on this window, and i cant even copy them from the other window with the missing price chart.

what do you think happened?

Hello

How do I crack my amibroker? Its really difficult. Heh!:angry:

I cracked it in the office but can't at home. thanks lots to any kind soul
