Watch out for this one on the daily chart I am spotting a topping pattern and this could break down soon.... For those who missed the ride in GBP/JPY there is a chance here be vigilant malaki ang target.

Mukang mas ok ito short kaysa USD/JPY kasi mukang mas mataas pa ito at mas malaki ang potential for downside. Malakas talaga yung Yen across the board.....

wet a minit, bakit kailangan magkaron ng breakaway gap bago matawag na exhaustion gap?
