## 1st half trades for FOREX

Posted by traderpinoy - 2008/01/14 20:15

---

due to overall weakness of EUR,USD,CHF,GBP,NZD,AUD i think for the first half of 2008 best trades will be the JPY crosses and USD/JPY.... they started their down move today I think it will have the biggest volatility for day traders....

anyways my strategy is SHORT signal entry only, resistance failure, fib pullback(retracement) on downtrend and support breakdown all following the stoch crossing below 20....

happy 2008 forex trading

Looks like Yen crosses are all the rage these days. Too bad wala akong experience with Yen crosses puro USD crosses kasi nilalaro ko kaya BORING!!! :lol:
