
OV - Philodrill

Posted by jeppi - 2007/03/22 02:44

OV seems to be going to do something... la pa breakout but ata lang => like basuras din => hehehe

Wag mo na sayangin panahon mo sa walang kwentang stock na ito :lol:

(I just have a bad memory about OV when it was still not a basura)

=====

Re: OV - Philodrill

Posted by paraord - 2007/03/22 03:26

thats very encouraging sherwin. who knows, jeppi might be right hehehe however base on the chart, i don't see anything really interesting yet. but will kip an eye on this one. just incase :)

its worth watching. Its currently consolidating.. Who knows baka mag cup and handle pa ito. But what jep is pointing out is the surge in volume activity which cannot be ignored. Usually, attempts to move higher accompanied by acceleration in volume are early signs of an impending omic... ah este bullish trend. :D

TP 0.031?

=====

Re: OV - Philodrill

Posted by - 2007/10/03 23:54

mga sirs! What can you say about ov?nag break sa .028, target of .04, tama po b?d pa ko marunong post ng chart

=====

Re: OV - Philodrill

Posted by - 2007/10/04 07:31

boss scorpion25 hindi ako isa sa mga sirs, pero tingin ko rin nagbreakout na nga siya @ .028 with volume of more than 2B shares and with the TP of .041!
please comment mga sirs kung correct or mali.

abang abang mga kids, mukhang may nabubuong momentum.

weekly macd, stochs, MAs -- all bullish

yeahbah...base sa chart nasan na ba OV sa elliot wave...starting wave3 na ba? TP 0.034

=====

Re:OV - Philodrill

Posted by yeahbah - 2008/05/09 07:05

using weekly chart, that is correct ;)

=====

Re:OV - Philodrill

Posted by mhanz794 - 2008/05/09 08:27

wala bang instances na nagskip minsan sa wave4 to go directly to wave5

=====

Re:OV - Philodrill

Posted by yeahbah - 2008/05/09 08:34

pwede kapag malakas talaga.

kapag ganyan, adjust ako ng computation, hindi pa naman tapos ang w3 so kung pumalo agad sa 0.04, then retrace, 0.04 ang w3 mo. recalculate ulit for w5.

ayon kay michael jardine, author ng new frontiers of fibonacci trading, pumapalo ang w3 usually between 138.2% at

161.8%, between 223.6% at 261.8% para sa w5.

yan basis ng ewave calculator ko, retracement waves is assumed to be at 50%. adjust lang after every waves.

=====

Re:OV - Philodrill

Posted by mhanz794 - 2008/05/09 08:47

palagi ba mas mahaba ang rally sa wave5 compare sa wave3?

=====

Re:OV - Philodrill

Posted by yeahbah - 2008/05/09 08:59

I'm not sure, i'm not a ewave expert :blush:

alam ko lang 5 waves up/down, 3 waves down/up

kalimitan naman hindi tinatamaan yung calculated wave targets ko, pang forecast lang talaga or pwede rin pang confirm ng pattern targets or multiple targets.

sample is AT

double bottom pattern points to 14

w1: 12.75

w2: 11.75

possible w3: 15

di pa tapos w3 ng AT ;)

mas swabe sa weeklies, di pa tapos w1 :blush:

sa kasamaang palad, out na ako sa AT. sold at 13.75, kept some for possible run up to 15, posted sell yesterday at 14.25, 30 minutes before close I sold at 13.75 instead. but that's ok, profit is profit ;)

tila break-out na to sa ascending triangle....ano sa tingin nyo

=====

Re:OV - Philodrill

Posted by yeahbah - 2008/05/12 21:11

pwedeng pilitin hehe

can't confirm the pattern, indicators looks good though ;)

=====

Re:OV - Philodrill

Posted by mhanz794 - 2008/06/10 08:47

ano analysis nyo dito sa OV...breakout na ba to?

Re:OV - Philodrill

Posted by yeahbah - 2008/06/10 08:57

analysis a month ago still stands. tingin ko 0.036 ang breakout price.

Re:OV - Philodrill

Posted by mhanz794 - 2008/06/12 07:47

.036 was hit but retracted back to 0.035 yesterday...false breakoout kaya?

Re:OV - Philodrill

Posted by yeahbah - 2008/06/12 08:24

wag lang babalik sa 0.032, still good.

Re:OV - Philodrill

Posted by mhanz794 - 2008/06/12 14:33

naku..bumalik sa 0.034 baka bukas 0.032 na.....paktay

Re:OV - Philodrill

Posted by trader3k - 2008/06/14 13:38

i think i see a bearish divergence in macd and rsi from june last year to present, i'll choose opm over this one.
